## Statement Information

- 1 Statement period:** Items included in this statement are for activity during the stated time period.
- 2 Name and address:** Trust contact information.
- 3 Name:** Name of the trust beneficiary.
- 4 Trust ID Number:** ID of the trust beneficiary.

## Sub-Account Summary

- 5** This is information about this specific trust sub-account. All trust sub-accounts are part of a "pooled" trust account where funds from the trust are invested together. Each sub-account is made up of units (a proportional amount) of the pooled trust account.
- 6 Trust Portfolio:** Name of the pooled trust portfolio that the sub-account has units in and the value of the sub-account as of the end-date of the statement period, broken down as follows:
  - Units:** The number of units held in the sub-account. When assets are deposited into the sub-account, units are designated to the sub-account proportionately. When assets are disbursed from the sub-account, units are deducted from the sub-account proportionately.
  - Unit value:** The value of each unit in the account. The overall value of the account's assets determines the unit value.
  - Market value:** The total value (U.S. Dollars) of the sub-account.
- 7** [If applicable] A pie chart illustrating the percentage of the pooled trust account that is invested in equities (e.g., stocks or stock funds), fixed income (e.g., bonds or bond funds), and cash (or cash equivalents) as of the last day of the statement period. The current composition of the account might be different, because of market movements, rebalancing trends, and other factors.

## Change in Sub-Account Value

- 8 Sub-account value on MM/DD/YYYY:** End-of-day market value (U.S. Dollars) of the sub-account on the last day of the previous statement period.
- 9 Transactions & Income:** The net value of deposits into the sub-account, dividends and interest earned during the statement period, and processed disbursements and fees.
- 10 Change in value of investments<sup>1</sup>:** Change in the market value of the sub-account's investments from the beginning to the end of the statement period. This value reflects the portion of the change in value that is allocated to the sub-account and does not reflect income earned from the investments. The investment account represents a diversified mix of equities (e.g., stocks or stock funds) and fixed income (e.g., bonds or bond funds), where the value of those assets will change based on fluctuations in the underlying markets.
- 11 Sub-account value on MM/DD/YYYY:** Ending market value (U.S. Dollars) of the sub-account on the last day of the statement period.

### DISCLAIMER

- The information contained in this document is not actual data about the Trust or your sub-account. It is for illustrative purposes only. This is a statement guide for sub-accounts of a pooled trust only, not for individual accounts.
- 1. True Link Financial Advisors, LLC ("Adviser") only provides investment management services upon entering into an Investment Advisory Agreement (IAA) with a client. With respect to pooled trust clients, upon entering into an IAA, the client is the trust; beneficiaries of the trust are not investment advisory clients of Adviser. Adviser does not provide investment advice to the beneficiaries of a pooled trust.

## Activity

- 1 **Sub-account value on MM/DD/YYYY:** End-of-day market value (U.S. Dollars) of the sub-account on the last day of the previous statement period.
- 2 **Deposits:** Addition of assets to the sub-account, along with interest and dividends earned during the statement period.
- 3 **Disbursements:** Processed distributions during the statement period (e.g., check(s) mailed or electronic transfer(s) initiated). Fees related to trustee's trust administration and investment adviser's investment advisory are included in this section.
- 4 **Change in value of investments<sup>1</sup>:** Change in the market value of the sub-account's investments from the beginning to the end of the statement period. This value reflects the portion of the change in value that is allocated to the sub-account and does not reflect income earned from the investments. The investment account represents a diversified mix of equities (e.g., stocks or stock funds) and fixed income (e.g., bonds or bond funds), where the value of those assets will change based on fluctuations in the underlying markets.
- 5 **Sub-account value on MM/DD/YYYY:** Ending market value (U.S. Dollars) of the sub-account on the last day of the statement period.

## Unique Assets

- 6 **Unique Assets:** Non-marketable assets (i.e., real estate, annuities, vehicle liens, etc.) held on behalf of or titled in the name of the sub-account that are not units of the account. This section will be blank if there are no unique assets for the sub-account.
- 7 **Type:** The kind of asset.
- 8 **Owned by Trust:** Denotes whether this asset is held within or outside of the trust.
- 9 **Purchase Value(\$):** The amount paid for the asset. This information will be left blank if the purchase value is not available.
- 10 **Market Value(\$):** The market value of the asset is based on the latest information provided by the trustee.
